Summary:

Dedicated web developer with hands-on experience in building scalable REST APIs and real-time applications using Node.js and Express. Proven track record in innovative problem-solving and team collaboration. Adept in frontend technologies and version control, committed to delivering impactful solutions that enhance user experience and drive organizational success. Skilled in strategic thinking and effective communication.

Experience

intering

Sep 2025 - present

Developed scalable REST APIs using Node.js and Express. Designed MongoDB schemas and models with Mongoose, including validation and indexing. Implemented secure authentication and role-based authorization using JWT. Integrated real-time features such as chat and notifications using Socket.io. Implemented Stripe payment integration, handling transactions and secure payment flows. Created middleware for error handling, authentication, and request validation. Collaborated with the team using Git/GitHub for version control and code reviews.

Education

Diploma in Computer Science

Aug 2021 - present

Completed a diploma program in computer science with hands-on experience in web development, programming, and database management using HTML, CSS, JavaScript, Node.js, and MongoDB.

Projects

TaskFlow — A Smart To-Do Application

[Github](#) [Live Link](#)

A simple and intuitive task management app where users can registration, login, verifyEmail, and add, edit, delete daily tasks. It helps users stay productive and organized with a clean UI and real-time updates.

ShopEase — Modern E-Commerce Platform

[Github](#) [Live Link](#)

A full-featured e-commerce web app that allows users to browse products, add them to cart, and place orders securely. Includes admin dashboard, product management, and payment integration.

Real-Time Chat Application

[Github](#) [Live Link](#)

Developed a real-time chat application allowing users to send and receive messages instantly. Implemented user authentication with JWT, real-time communication with Socket.io, and a responsive front-end using React.js.

Skills

- **Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, JavaScript
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Version Control & Tools:** Git, GitHub
